

Take this quick quiz to check your understanding of how DirectTrust Directory contribution files are constructed.

1. How many organizations are represented in this sample contribution file?

- a. Nineteen because each row represents a different organization.
- b. Four because each ORG_UID represents a different organization, and Sole Proprietor physicians count as an organization.
- c. Nine because each row with a mailing address represents a different organization.
- d. You can't tell how many organizations are represented in this sample because you need to examine the certificate information associated with each Direct address to determine the associated organization.

2. The West Branch Care organization provides services at how many locations?

- a. Two because their contribution includes two rows which indicate a type of practice.
- b. One because their contribution includes only one distinct practice location address.
- c. Three because this contribution includes three rows with the same ORG_UID.

3. How many personnel for the West Branch Care Organization have individually assigned Direct addresses?

- a. 2
- b. 3
- c. You can't tell based on the information in the sample.

4. Why do all of the rows associated with DirectTrust include the same practice address information?

- a. The organization only uses workflow addresses.
- b. Each person has a Direct address for individual use.
- c. Every row in the Aggregated Directory CSV file includes a practice location to improve searchability for Direct address information.

5. Which location has correctly formatted address information?

- a. West Branch Care
- b. DirectTrust
- c. University Orthopedics-Providence
- d. BOB MORE MD

6. Which organization has incorrectly formatted name information?

- a. West Branch Care
- b. DirectTrust
- c. University Orthopedics-Providence
- d. BOB MORE MD

Answer Key

- 1. D
- 2. B
- 3. A
- 4. C
- 5. C
- 6. D
